ISSA ENGINEERING AND CONSTRUCTION COMPANY

# COMPANY PROFILE

# Welcome To Issa Engineering and Construction Company

## Building Excellence With Integrity

Issa Engineering And Construction takes pride in delivering reliable construction, infrastructure, engineering, and manpower solutions across Saudi Arabia. Since our establishment, we have remained committed to quality workmanship, operational efficiency, safety standards, and timely project execution. Our experienced team continuously works to provide practical and dependable solutions that support the growing demands of the construction and infrastructure sectors.

At ISSAE & C, we believe every project represents a long-term partnership built on trust, professionalism, and performance. Through dedication, technical expertise, and client-focused services, we aim to contribute to the Kingdom's development while maintaining the highest standards in every stage of our operations. Our mission is to create sustainable value for our clients through quality-driven engineering and construction excellence.

# Company Overview

## About Us

### Trusted Engineering Solutions

ISSA ENGINEERING AND CONSTRUCTION is a professional contracting and engineering company delivering reliable construction, infrastructure, manpower, and equipment solutions across Saudi Arabia. The company is committed to maintaining high operational standards through quality workmanship, safety compliance, and efficient project execution. With practical industry experience and a skilled workforce, ISSA E & C supports civil, infrastructure, road work, excavation, and engineering projects with dependable services tailored to client requirements.

## Reliable Project Execution

---

ISSA E & C combines technical expertise, skilled manpower, and modern operational capabilities to deliver dependable engineering and construction solutions with quality, efficiency, and professional project management standards.

### Quality Commitment

Delivering projects with strict quality standards, & professional execution.

---

### Industry Experience

Providing engineering and infrastructure solutions through experienced teams.

# Mission & Vision

## Our Mission

To provide dependable construction, infrastructure, manpower, and engineering services through skilled professionals, modern operational practices, safety-focused execution, and commitment to delivering quality projects on time while building strong and lasting client relationships.

## Our Vision

To become a trusted leader in Saudi Arabia's construction and engineering sector by delivering innovative, reliable, and high-quality infrastructure solutions that contribute to sustainable development, client satisfaction, and long-term industry growth through professional excellence.

## Our Values

We operate with strong professional values focused on quality, integrity, safety, reliability, and client satisfaction. These principles guide every project and strengthen long-term partnerships through efficient operations.

- Maintaining safe, & efficient operations across all project environments.
- Building strong client relationships through integrity, trust, and consistent project performance.
- Delivering quality workmanship with commitment to professional engineering & construction standards.

## Quality

### Driven Progress

We remain committed to continuous improvement, operational excellence, and delivering quality-focused engineering and construction solutions. Through innovation, professional standards, and reliable project execution, the company strives to support sustainable progress and contribute effectively to Saudi Arabia's growing infrastructure and development sector.

# Core Services

## 01.

### General Construction

Professional civil and commercial construction solutions delivered with quality, safety, and efficiency.

## 02.

### Infrastructure Works

Infrastructure works including road works, excavation, grading, and site preparation services.

## 03.

### Equipment Rental

Heavy equipment rental solutions supporting civil, infrastructure, and industrial project.

## 04.

### Manpower Supply

Providing manpower solutions for construction, engineering, industrial, & technical projects.

## 05.

### MEP Services

Mechanical, electrical, and plumbing solutions for industrial & infrastructure projects.

## 06.

### Engineering Services

Engineering support, technical supervision, planning, and project execution management solutions.

# General Construction

**Building Strong Foundations  
For Sustainable Infrastructure  
And Modern Construction  
Development Projects**

We deliver general construction solutions for commercial, industrial, civil, and infrastructure projects. Our team focuses on quality workmanship, efficient execution, safety compliance, and timely project completion while maintaining professional construction standards across every stage of development.

## Civil Works

Civil construction services including structural development, site preparation, concrete works, and infrastructure support solutions designed to meet project specifications, and industry quality standards with execution and experienced workforce management.

## Construction

Complete commercial and industrial building construction solutions covering planning, structural execution, finishing works, and project coordination with focus on durability, safety standards, operational efficiency, and timely completion of construction activities.

## Execution

Efficient management services ensuring smooth coordination, resource planning, operational supervision, quality control, and timely execution of construction projects while maintaining professional standards, safety compliance, and effective communication throughout project operations.

**Delivering Infrastructure  
Development Solutions  
Across Modern Construction  
And Industrial Projects**

# Infrastructure Work

We provide infrastructure development including road construction, excavation, grading, backfilling, and site preparation services. Our experienced team ensures efficient execution, and timely completion of infrastructure projects supporting industrial and civil development across Saudi Arabia.

## Road Works

Road construction services including grading, asphalt preparation, base course installation, and finishing works ensuring efficient infrastructure development.

## Excavation Services

Excavation & earthmoving solutions supporting infrastructure, utility, and construction projects with accurate site preparation, and efficient material handling processes.

## Site Preparation

Site preparation services including land clearing, grading, leveling, and backfilling operations ensuring construction readiness and smooth infrastructure project.

# Equipment Rental

## Rental Benefits

Equipment ensuring performance across demanding projects.

Operational support helping improve efficiency, & execution.

Flexible rental solutions designed for short-term and long-term project.

Modern machinery supporting sefficient, and site operations.

## Earthmoving Equipment

Excavators, loaders, and earthmoving equipment supporting excavation and construction operations.

## Lifting Equipment

Lifting equipment for material handling, structural installation, and industrial construction.

## Transport Vehicles

Transport vehicles supporting material movement, site logistics, and operational project.

## Power Equipment

Power generators and support machinery ensuring uninterrupted construction & infrastructure operations.

# Manpower Supply

## Skilled Workforce Solutions

---

We provide skilled and qualified manpower solutions supporting industrial operations. We supply workforce solutions tailored to project requirements. Our manpower services support clients with experienced technical staff, general labor, supervisors, operators, and specialized personnel committed to maintaining workplace safety, and smooth project execution.

- Providing skilled manpower supporting industrial operational project requirements.
- Reliable workforce solutions ensuring efficiency, and project execution standards.
- Experienced personnel maintaining safety compliance and operational excellence.

## Reliable Staffing Support

Our manpower division focuses on delivering dependable staffing solutions through proper workforce management, qualified personnel selection, and operational coordination, helping clients efficiently manage project workloads while maintaining quality standards, and smooth operational performance.

### 01. Technical Manpower

Supplying qualified technical professionals including engineers, supervisors, operators, electricians, welders, and skilled technicians supporting project operations with professional expertise.

### 02. General Manpower

Providing non-technical workforce solutions including helpers, laborers, drivers, and support staff ensuring efficient daily operations, site management, and smooth project execution activities.

# MEP Services

We delivers reliable Mechanical, Electrical, and Plumbing solutions for commercial, industrial, and infrastructure facilities. Our MEP services focus on efficient system installation, operational reliability, safety compliance, and long-term performance. With experienced technical teams and professional project execution, we provide integrated MEP solutions supporting modern building operations, infrastructure development, and industrial facility requirements across various sectors in Saudi Arabia.

## Integrated MEP Solutions

Professional MEP services ensuring efficient building operations, system reliability, safety compliance, and long-term infrastructure performance across commercial and industrial facilities.

### 01. Mechanical

Mechanical system installation and maintenance solutions including HVAC systems, ventilation, piping, and industrial mechanical support ensuring operational efficiency & reliability.

### 02. Electrical

Electrical solutions covering power distribution, lighting systems, cable installations, and electrical infrastructure supporting safe and efficient facility operations standards.

### 03. Plumbing

Plumbing solutions including piping installation, water supply systems, drainage networks, and maintenance services supporting commercial and industrial infrastructure requirements.

## Advanced Engineering Support

---

We provides engineering support, technical supervision, planning, and execution management services for construction, industrial, and infrastructure projects. Our experienced team ensures operational efficiency, quality compliance, safety standards, and project coordination while supporting successful completion of engineering activities.

- Professional supervision ensuring quality standards across infrastructure projects
- Project planning supporting efficiency, coordination, and timely project execution
- Experienced technical teams maintaining safety compliance throughout project.
- Practical engineering solutions supporting industrial, civil, and infrastructure project operational requirements.

## Technical Supervision

Professional technical supervision ensuring construction quality, operational efficiency, safety compliance, and proper implementation according to project. Experienced supervisors monitor workflows, coordinate site activities, maintain operational standards, and support efficient project execution.

---

## Project Planning

Efficient project planning services supporting scheduling, resource coordination, operational management, & successful execution of development activities with professional engineering standards.

## Project Experience

We have successfully executed and managed a variety of construction and infrastructure projects across Saudi Arabia. Our experience covers road construction, excavation, backfilling, site preparation, and infrastructure development activities. We consistently deliver reliable solutions that meet client requirements while ensuring timely project completion and operational excellence.

## 1. Degla Milliyem Scheme No (2025/SK)

Project Details	Information
Location	MALHUM
Duration	JAN 2025 – AUG 2025
Scope of Work	Road work including sub-base, base course, and asphalt works
Status	Completed

## 2. Road Work Project Phase 2 08C-C14

Project Details	Information
Location	RASIL KHAIR
Duration	SEP 2025 – FEB 2026
Scope of Work	Sand backfilling & road works
Status	Completed

## 3. AL KARJ PROJECT CONTRACT NO 165/2026

Project Details	Information
Location	AL KARJ
Duration	JAN 2026 – Ongoing
Scope of Work	Excavation, backfilling, and road works
Status	Ongoing

## Our Clients

We value strong client partnerships built on trust, quality, and performance, successfully supporting leading organizations through reliable construction and infrastructure solutions.
